

Carolina Coastal Adventure is a South Carolina Conservation Districts Program and sponsored by the Berkeley Soil and Water Conservation District, in partnership with:

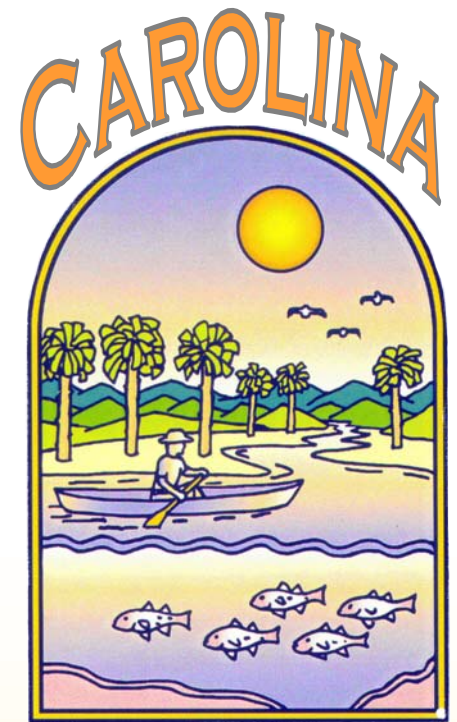

- Santee Cooper
- Old Santee Canal Park
- Berkeley County
- Berkeley Electric Cooperative
- Berkeley Soil & Water Conservation District
- SC Association of Conservation Districts
- SC Department of Natural Resources

*"It's our hope that these students will work to conserve our natural resources in SC for generations to come!"*  
 Lindsay Fairchilds,  
 DNR Land, Water, and Conservation Division

# COASTAL ADVENTURE

*Carolina Coastal Adventure provides an integrated, hands-on opportunity for 9th and 10th graders to learn about water resources & environmental conservation*

# Get down and dirty with other students interested in the outdoors!

**A**djust your viewpoint and make new friends while canoeing through a swamp

**D**iscover medicinal uses for native plants

**V**enture into the salt marsh at low tide to see the creatures that live there

**E**nhance your own environment by learning how to protect water quality

**N**estle in the sand around a beach bonfire and listen to Gullah storytelling

**T**our a water/sewer treatment plant to learn about how our water gets cleaned

**U**nderstand how electricity is generated by water

**R**ide through cypress swamps and find out how critters determine water quality

**E**xplore Charleston Harbor from a research vessel and trawl for the creatures who live there

## WHAT YOU WILL LEARN ABOUT:

Water quality — Water quantity — Wildlife — Soils — Hydrology — Fisheries — Ecosystems

## The Scoop

High School students from all over the state gather to camp out on a lake, take trips all over the Coast, and learn about water resources and conservation.

### We take trips to:

- Cypress Gardens
- A steam plant on Lake Moultrie
- Old Santee Canal State Park

### Activities include:

- Canoeing
- Nature walking
- Ghost and Gullah storytelling
- Bonfires
- Barbequing
- Exhibitions & presentations on native wildlife & vegetation

## Participation—it's free!!

9th and 10th graders interested in natural resources are eligible to attend. Students are sponsored by their local Conservation District and remaining costs are covered by program partners

## To Apply

Call your local Soil & Water Conservation District (available at <http://www.dnr.sc.gov/conservation/index.html> or in the phone book under county government). You may also contact the Berkeley District at 843/719-4146
